

# CE 550: Professional Engineering Communication

Advance your career by enhancing your communication skills. This course is designed for graduate engineering students pursuing a career in industry.

Topics covered include:

- ✍ Writing effective reports
- ✍ Writing winning proposals
- ✍ Writing clearly and concisely
- ✍ Designing effective slide decks
- ✍ Delivering strong presentations
- ✍ Providing constructive verbal and written feedback
- ✍ And much more!

Engineering firms rate communication skills as highly important for new employees—and for career advancement

## Other things to know about CE 550:

- 💡 3 credits
- 💡 Offered fully online in fall & spring
- 💡 **Open to all graduate students in any engineering department**
- 💡 May count toward your degree—confirm with your advisor
- 💡 Limited seats to ensure a high quality experience

What students say about the course:

- 🏆 “Dr. KA was an awesome instructor. This is one of the most helpful courses I have taken!”
- 🏆 “This is the most useful course I’ve taken during my studies at NCSU. Dr. KA makes this course vivid and interesting.”
- 🏆 “The skills learned in this class can propel any engineer in their career.”
